Good's Garden Sheds Commitment to Quality

We are committed to provide you with a product that is neat, clean, and long lasting @ a fair and honest price. We may not always have the lowest price, but we will not lower the standards of our quality or integrity. We are committed to the lowest cost for you in the long haul. We do however have a few economy sheds with lower structure standards to meet the short term needs.

Our goals through each step.

During the sales, we are committed to being honest and accurate with all of our promises. We are knowledgeable about our sheds and can assist you in choosing the style, size or options that will best fit your needs. We will not pressure you into a decision that you will regret later.

During the building, we are committed to fair and honest relations with each employee. We intend to hire only those individuals that are suited for the job they are to perform. Our goal is to build each shed with care and respect. We also look for new and better ways to improve the quality and lower the cost of your shed.

During the delivery, we are committed to being on time, and giving you the time to consider whether you like the location you have chosen for your shed. We allow a little extra time in our schedule for rain or other circumstances beyond our control. We are committed to upfront and open communication in all circumstances.

After the initial sale, manufacturing and delivery, we are committed to standing behind the work that we performed. If there are any problems you are having as a result of our work, please call and inform us. My mobile phone number is 434-665-5400. (Paul H Good owner)

We believe that Quality is not just a well built and installed shed, but also the Quality and respect of listening and valuing your concerns. We desire your experience to be pleasant, enjoyable and meaningful.

Thank-you for your time and consideration.

Sincerely,

He that loveth his brother abideth in the light, and there is none occasion of stumbling in him.
1 John 2:10

Standard Features

- (2) windows 18 X 27
(Over 16 Ft long 24 X 36)
(1 window for 8' sheds)
- (1) 6 FT Fiber double door
- 7' 3" Front wall height
- 5' 8" Back wall height
- Wall sheathing 7/16" OSB
- 4.5" vinyl Dutch-lap Siding
- Trim-Aluminum Clad
- Aluminum Door Tread-plate
- Roofing-30 Architectural Shingles
or 40 year metal

Delivery included within 50 miles of Gladys, VA.

Standard setup included.

The carriage has a 20 inch over hang on the front side allowing this design to have protection for the doors and windows from wind and rain. The steeper pitched roof, the decorative design and neat workmanship, makes for an attractive and long lasting practical solution for your storage needs. Keep in mind that a loft may not work as well with this style, unless you add 1 ft taller walls.

or 40 year metal

Delivery included within 50 miles of Gladys, VA.

Standard setup included.

The Classic sheds have all the features of the A-roof style and more, for only a little more cost. The differences of the classic style and A-roof style are these; a steeper roof line, and bigger overhangs. These additions add protection to your doors and windows and give you a majestic appearance. Add the dormer to the Classic style to drain rain water off of your main entrance door and to match the dormer on your house.

or 40 year metal

Delivery included within 50 miles of Gladys, VA.

Standard setup included.

This style works very well to add the optional loft which increases the storage capacity dramatically. The higher head room makes this shed a good option for a workout room or good storage for taller merchandise. Perhaps you just like the gambrel appearance.

Vinyl A-Roof Garage

Shingle Roof		Metal Roof	
12x14	\$6,497	12x14	\$6,501
12x16	\$6,908	12x16	\$6,887

Delivery included within 50 miles of Gladys, VA.

Standard setup included.

This style is excellent for the ultimate storage facility. It has a strong floor and also works well with the loft option. You can work on your equipment and have room to store your parts and tools. Why work out in the mud, when you could do it in your shed on a dreary day.

or 40 year metal

Delivery included within 50 miles of Gladys, VA.

Standard setup included.

The Classic sheds have all the features of the A-roof style and more, for only a little more cost. The differences of the classic style and A-roof style are these; a steeper roof line, and bigger overhangs. These additions add protection to your doors and windows and give you a majestic appearance. Add the dormer to the Classic style to drain rain water off of your main entrance door and to match the dormer on your house.
